Re: Clean Bay Restaurant Certification Program

Dear Owner:

The City of Redondo Beach and the Santa Monica Bay Restoration Commission (SMBRC) would like to congratulate your restaurant for becoming a member of the *Clean Bay Restaurant Certification Program*. The certification means you have received a score of 100% on the *Clean Bay Restaurant Certification Program's* stormwater checklist, and have gone above and beyond our local stormwater regulations.

Stormwater pollution is a serious problem for Santa Monica Bay and local beaches, and the primary source of coastal pollution in Southern California. The Bay and its coastline are critical to our local economy as well as the region, and are important recreational and cultural resources for the second-most populous region in the United States. The City of Redondo Beach and SMBRC would like to take this opportunity to recognize your restaurant for doing its part to protect our Bay and beaches. Your efforts make a difference.

For your outstanding efforts in helping to keep Santa Monica Bay and local beaches beautiful, clean, and safe, we are pleased to present you with the enclosed *Clean Bay Restaurant Certificate* to place in your window or other prominent location in your establishment (recommended location is next to the Health Department letter grade plaque). Your restaurant, along with other certified restaurants, will also be featured on the www.santamonicabay.org website.

If you have any questions about this program, please feel free to contact me via telephone at (310) 318-0661, extension 2455, or via email at Mike.Shay@redondo.org. Again, our congratulations to you for your outstanding business efforts.

Sincerely,

Michael Shay, Principal Civil Engineer
